

Before the California CAASPP Tests, there were Academic Performance Index (API) tests and ratings here, until 2014. These were supplied at two levels by the state. In the first rating, each school was compared to all other same-grade-level schools in California. SRVUSD reported those ratings (generally all 10 out of 10) to parents. But there was a second rating of each schools, to 100 SIMILAR schools, demographically and/or socioeconomically. SRVUSD concealed those ratings (in yellow). A local citizen compiled those ratings, and had preserved data from 2005 and 2012 available -- showing an average of just 6.96 out of 10 and then 5.79 out of 10.
